Humanist photography

Chers amis photographes et amateurs d'art photographique,

As the Paris Photo fair prepares to open its doors on Thursday, November 7, 2024, under the glass roof of the renovated Grand Palais, another celebration is already underway for photography enthusiasts. In her speech at the Henri Cartier-Bresson Foundation gala, held this Monday, November 4, at the Westin Paris Vendôme hotel, Minister of Culture Rachida Dati announced that a major national celebration will take place in 2026 and 2027 for the bicentenary of the invention of photography! It was indeed the very first permanent photographs in history date back to around 1826-1827 when the French engineer Nicéphore Niépce (1765–1833) took the famous «View from the Window», from a window of the Gras estate in Saint-Loup-de-Varennes. Taken using a camera obscura and a silver plate coated with bitumen, and after an exposure time of several days, this image is the culmination of experiments seeking to surpass its first latent image negative of a landscape (that remained sensible to light after development and faded to time due to light exposure) obtained in 1816. "From the daguerreotype to the selfie, the bicentenary of photography is an invitation to celebrate the history of this major art form in France." (1)

Rachida Dati, Minister of Culture

For the 10th edition of its international photography exhibition, and to celebrate 200 years of photography, the Groupe Photo Région Vernon has chosen to focus on those who work behind or alongside the «chambre obscure» those who work with cameras or in related fields: photographers and related professions, lighting technicians, prop makers, graphic designers, makeup artists, etc.

In the gallery of honor at our 2026 exhibition, we are displaying a selection of photographs representing historically known photographers or unknown photographers who have lived since the birth of photography.

Alain Morata, France / EFIAP/d2, EFPF R-ISF-Bronze, H-ISF, Diamant-ISF, GPUCR4, GPUVIP3, GPUHERMES, LEGENDARY.APS/s, MASTER.NPS, IIG/s2, Hon.CPE, Hon.WPAI

Photography: a childhood passion put on hold by a demanding professional life; that was back in the days of film.

2012: a clean slate, a fresh start, for the digital age has arrived! Finally, the ability to express myself, with the invaluable help of post-processing!

No preferred theme, no photographic taboos: the essential thing is to create images where emotion and light combine.

To communicate what one feels at the moment of capture: to depict one's impressions. A digital sensor, however high-performing, is not connected like the human eye to a heart, a brain, a story, emotions...

My photos/images, defined in this way, have allowed me, through numerous national and international photography exhibitions, to obtain awards, medals, and distinctions, notably 12 prestigious FIAP gold medals and the distinctions mentioned above.

Peter Aemmer, swiss / EFIAP/b

I was born in Bern, Switzerland, in 1949.

In 1986 I started with my new hobby, the photographie.

My first photographs were taken with a Canon F1. In the 1990s, I worked with the Mamyia RZ 7 medium format camera. Mostly monochrome images and developed and enlarged in my own laboratory.

In 2012 I switched to digital photography. First it was the Canon EOS5D Mark II. Today I work with the Canon EOS5D Mark IV.

In the meantime I reached the FIAP award EFIAP/b in 2024. In addition, I was accepted into the ÖGPH Honorary Lodge as a HonEÖGPH member in the Austrian Association.
